Enhanced Morphis Crypto Kiosk Manager has More Automation Capabilities

Share Article

Balancing and reconciling cash receipts across multiple Armored Carriers and Banks is now automated with Morphis Crypto Kiosk Manager. This process has never been easier for Morphis clients.

DALLAS (PRWEB) MAY 25, 2021

Morphis, Inc. is releasing an unprecedented updated of its popular Crypto Kiosk Manager (SM) software package. In addition to automation and real-time transaction reporting this newest version adds dashboard glanceability to enhance the overall user experiences. The dashboard makes exceptions instantly visible and brings peace-of-mind to Bitcoin ATM operators everywhere. Balancing and reconciling cash receipts across multiple armored carriers and banks has never been easier.

Newly available features include:

- Automated and real time transaction data import from crypto manufacturer
- Automated and real time carrier deposit processing data import
- Automated and real time bank deposit data import

According to Morphis Regional Sales Manager, Trent Pratt "Morphis' new **Crypto Kiosk** Dashboard provides real time data visibility which comes at a critical time for BATM owners/operators. The number of installed BATM's has doubled from January 2020 to January 2021."

Morphis clients will have access to a aggregated view of various sources of data which are being reconciled and balanced automatically and reporting only exceptions to manage.
