MORPHIS, INC. ACHIEVES SOC 2 TYPE 2 CERTIFICATION, REINFORCING COMMITMENT TO DATA SECURITY AND OPERATIONAL EXCELLENCE

May 29, 2024 – [Dallas, Texas] – Morphis, Inc., a leading provider of cash management solutions, is proud to announce that it has successfully achieved SOC 2 Type 2 certification. This milestone underscores Morphis' dedication to maintaining the highest standards of security and operational integrity for its clients and partners.

The SOC 2 Type 2 certification, conducted by Laika Compliance LLC, assessed Morphis' Enterprise Cash Management Platform, focusing on the suitability of the design and operating effectiveness of its controls relevant to security.

Key Highlights of the Certification:

"**This certification** is a testament to our team's **hard work and dedication** to providing **secure and reliable services** to our clients. We will continue to uphold these standards and **strive for continuous improvement**."

- **Enhanced Data Security:** The SOC 2 Type 2 certification validates that Morphis' controls and processes meet stringent security standards, ensuring that client data is safeguarded against unauthorized access and breaches.
- **Operational Reliability:** This certification demonstrates Morphis' commitment to maintaining robust internal controls and processes that ensure the reliability and integrity of its services.
- **Client Trust and Confidence:** Achieving SOC 2 Type 2 certification reinforces Morphis' dedication to building and maintaining trust with its clients by adhering to best practices in data security and operational management.

"We are thrilled to receive the SOC 2 Type 2 certification, which reflects our relentless commitment to data security and operational excellence," said Alif Rahman, President of Morphis, Inc. "This certification is a testament to our team's hard work and dedication to providing secure and reliable services to our clients. We will continue to uphold these standards and strive for continuous improvement."

The SOC 2 Type 2 audit covered various aspects of Morphis' Enterprise Cash Management Platform, including identity and access control, security monitoring, threat management, incident response, and security awareness training. The comprehensive evaluation by Laika Compliance LLC confirmed that Morphis' controls were suitably designed and operating effectively throughout the audit period.

Morphis, Inc. remains committed to providing innovative cash management solutions that meet the evolving needs of its clients while ensuring the highest levels of security and compliance.

About Morphis Inc.
Morphis was founded in 1999 and has become the world's leading supplier of payment systems and currency supply chain management software. Central banks, depository institutions, card issuers, armored carrier companies, and many other companies in the consumer financial services sector use Morphis products daily. By utilizing proprietary technology, Morphis can provide cutting edge, on-demand analytics and fulfillment logistics, delivering efficient, robust solutions for enterprise cash management. Their software suite includes a customer relationship management platform; applications for cash forecasting, logistics optimization, and financial reporting; and tools for managing assets, vendors, contracts, and service tickets. Their customers have a choice of on-site licensing or SaaS licensing, ideal for larger clients, and web-based applications for small businesses.
